DECISION ON PETITION TO  
RESET PERIOD FOR REPLY

This is a decision on the petition filed on February 1, 2002, requesting that the shortened statutory period for reply set forth in the Office action mailed on December 28, 2001, be reset to run from the date on which the Office action was actually received at the correspondence address of record.

The petition is **dismissed**.

Petitioner has provided a statement that the Office action in question was received at the correspondence address of record on January 29, 2002.

An inspection of the application file indicates that the Office action was remailed on January 30, 2002, in response to a request filed on January 17, 2002, for remailing of the Office action, and that the shortened statutory period for reply was reset to run from the date of remailing.

Accordingly, the petition to reset the period for reply to the Office action originally mailed on December 28, 2001, to run from the receipt date of January 29, 2002, is dismissed as moot, in view of the remailing of the Office action on January 30, 2002, which reset the period to run from the date of remailing.

The application file is being forwarded to the Central Files of Technology Center 2800 to await a response to the Office action. No fee is required for the petition.
